Consent to Perform Dentistry

I herby authorize and direct J. Michael Wedin, DDS and/or dental auxiliaries of his choice to perform the following dental treatment or oral surgery procedures(s), including the use of any necessary or advisable local anesthesia, radiographs (x-rays), or diagnostic aids:

* Preventive hygiene treatment (prophylaxis) and the application of topical fluoride.
* Application of plastic "sealants" to the grooves of the teeth.
* Treatment of diseased or injured teeth with dental restorations (fillings and crowns)
* Replacement of missing teeth with dental prosthesis. (Bridges, partial/full dentures).
* Removal (extraction) of one or more teeth.
* Treatment of diseased or injured oral tissues *(hard* and/or soft).

I understand that there are risks involved in this treatment and hereby acknowledge that these risk(s) will be explained to me, that I will have an opportunity to ask questions regarding the treatment and the risks, and that I fully understand the same.

I agree to the use of local anesthesia and the use of nitrous oxide/oxygen analgesia depending on the judgment of the doctor. Nitrous oxide/oxygen may occasionally produce nausea and vomiting. I am also aware that the nosepiece leaves an indentation or ring around the nose, which disappears shortly after the procedures. I understand and have been informed of the above risks and complications.

I recognize that during the course of treatment unforeseen circumstances may necessitate additional or different procedures from those discussed. I therefore authorize and request the performance of any additional procedures that are deemed necessary or desirable to the oral health and well being, in the professional judgment of the dentist.

There are possible risks and complications associated with the administration of local anesthesia, sedation and drugs. The most common of these are swelling, bleeding, pain, nausea, vomiting, bruising, tingling and numbness of the lips, gums, face, and tongue, allergic reactions, hematoma (swelling or bleeding at or near the injection site), fainting, lip and cheek biting resulting in ulceration and infection of the mucosa. I also understand that there are rare potential risks such as unfavorable reactions to medications in respiratory and cardiovascular collapse (stopping of breathing and hearth function and lack of oxygen to the brain that could result in coma or death. I understand and have been informed of the above risks and complications.

I also authorize the doctor to use photographs, radiographs, and other diagnostic materials and treatment records for the purpose of teaching, research and scientific publications.

I will be advised that the success of the dental treatment to be provided will require that the patient and the parent follow post-operative and post -care instructions of the dentist I agree that the success of the treatment requires that all post-operative and post-care instructions be followed and that regular office visits as my dentist and his auxiliaries must be maintained.

I hereby state that I have read and understand this consent, and that all questions about the procedures will be answered in satisfactory manner; and I understand that I have the right to be provided answers to questions which may arise during and after the course of my treatment.

I further understand that this consent will remain in effect until such time that I choose to terminate-it.
